### **Re: 800 Carlisle Way Well & Water Tank Project — Draft Environmental Impact Report (DEIR)**

Dear Mary Jeyaprakash:

Thank you for including the California Department of Transportation (Caltrans) in the environmental review process for the 800 Carlisle Way Well & Water Tank Project. The Local Development Review (LDR) Program reviews land use projects and plans to ensure consistency with our mission and state planning priorities. The following comments are based on our review of the May 2024 DEIR.

Please note this correspondence does not indicate an official position or approval by Caltrans on this project and is for informational purposes only.

#### **Project Understanding**

The proposed project would reactivate the project site as a groundwater extraction site by constructing a replacement well that would be deeper than the current one.

#### **Construction-Related Impacts**

Project work that requires movement of oversized or excessive load vehicles on State roadways requires a transportation permit that is issued by Caltrans. To apply, please visit Caltrans Transportation Permits ([link](#)).

Prior to construction, coordination may be required with Caltrans to develop a Transportation Management Plan (TMP) to reduce construction traffic impacts to the STN.
